

## APC LATE MODEL SERIES Memo

### APC Late Model Series Teams:

There have been several inquiries regarding number placement on APC Late Model Series Cars. Please to refer to Rule 6.11

### Technical Rule:

**6.11. Numbers must be on the roof (readable from the right side of the car) and on both doors, at least 18" high and 3" wide.** All numbers must be dark on a light background, or light on a dark background. No gold, silver, metal flake or trick numbers. A number must be placed on the front of the car, below the left headlight cover. NOTE: Both front fenders and doors of car shall be completely free of lettering, numbers and/or decals. APC Late Model Series reserves front fenders and in front of the numbers on the door.
