Engine Tech Inspection: POST-RACE

1. Engines maybe removed after racing event for further inspection at an approved engine repair facility.
2. Engines removed for further tech inspection will not be taken to engine repair facility that originally "sealed" the engine.
3. Any engine that passes post-race inspection will be "re-sealed" with UNITED RACING SERIES seals at no cost to car driver/owner.
4. If engine fails post-race inspection: Car driver/owner is responsible for ALL outstanding invoices prior to engine being returned.

Within the guidelines of utilizing the 'Crate' engine options all competitors are subject to a zero-tolerance policy of inspection and conformability to all guidelines as specified by the manufacturer.

If in the event any team is considered in question as to the productivity of performance from a 'crate' powered engine, that engine will be susceptible to the following inspection process without protest. Failure to adhere to any action taken by UNITED RACING Series officials will result in immediate disqualification & one race suspension.

At the conclusion of any race event UNITED RACING Series reserves the right to require any team to remove engine in complete form and turn over possession to appropriate officials for inspection purposes to be determined by officials.

Engine will be susceptible to dyno testing and/or engine tear down for complete inspection to determine total legality to factory produced complete form.

In the event of engine rebuild the only modifications are listed below. Crate engine rebuild maximum parameters.

- Maximum overbore of .008". Maximum Deck surfacing of block: .005"
- Maximum deck surfacing of cylinder head: .010 straight only. NO angle milling permitted.
- Minimum rod and main bearing size: .010" under
- Compression Ratio: GM 604 10.0:1 Max, Ford 347Sr/Sr7 10.0:1 Max

All other necessary parts required for rebuild are to be direct factory replacement purchased through GM/FORD and are exact OEM specified part numbered to '604', '602' OR 'D347SR/7' specification sheet and installed to factory specs. **APPROVED AFTERMARKET REPLACEMENT ENGINE PARTS LIST BELOW. APPROVED Stock Crate Engine replacement parts:**

GM 604 Replacement Piston: Mahle Engine Parts - Part # 930127805	GM 604 Replacement Oil Pan: Champ Oil Pan - Part # CP100LTRB Champ Oil Pick-up Tube - Part # 046- 1012SB	GM 604 Replacement Timing Cover ALLSTAR Part # 90008 or "602" stock timing cover	GM 602 Replacement Oil Pan: Champ Oil Pan – Part # CP55LTRB Champ Oil Pick-up Tube – Part 1010SB
---	---	---	---

ANY CRATE ENGINE THAT FAILS TECHNICAL INSPECTIONS WILL RESULT ONE YEAR SUSPENSION FOR CAR OWNER/DRIVER/CREW CHIEF!!

ENGINE CLAIM RULE:

Any CRATE engine maybe claimed after any event for the cost of a new replacement stock Crate Engine. (Crate engine cost + Tax + \$750.00 sealing/admin fee. CASH ONLY). Must finish in the top 10 in order to claim an engine. (See General rule book for details)
